

## **Bible**

### **Inductive Bible Study**

The *NIV Study Bible* is our primary text. Students learn through verse-by-verse study of books of the Bible through a variety of means including lecture, small group discussion, and individual journal work. Inductive Bible study skills of observation, interpretation, and application are practiced. Students develop a Christian worldview as classes focus on essential questions like: Who is God? How does He save? And How then should we live? Life application and transformation are stressed.

### **Scripture Memory**

We employ the Memlok memorization system to memorize the Bible. Twice weekly students learn new verses and review what they have already memorized. The Memlok system organizes the memorization of verses into 40 topics. Each verse within a topic is given a picture or a visual “cue” to prompt students to get started with the verse. Topics include: deity, sovereignty, joy, grace, obedience, family relations and many more. For more information visit the website: <http://www.memlok.com>
